

# REACH Bwindi

Sight4Bwindi Newsletter #7 – Spring 2021

**Spring is here and with it, good news from our friends in Uganda.**

**Despite the many challenges of this last year, eye care services have continued to develop at BCH and the future is looking brighter. In January 2021, we were able to support Alex, the Ophthalmic Nurse with equipment to allow him to practice at a safer distance, by providing the Eye Clinic with an ‘air puff’ tonometer and an indirect ophthalmoscope.**

**Last week we received news that Pedson had completed his Nursing Diploma which is his ‘passport’ to the Diploma in Ophthalmology course. Congratulations Pedson! He achieved this with your help so we wanted to share his message:**

**‘I would like to inform you with much thanks that finally I have finished the Nursing diploma course. I thank you very much with all my heart for your tireless efforts to support my education’.**

**Although none of us can see into the future, we remain committed to supporting better seeing in the future for those in Bwindi.**

**Enormous thanks to *everyone for your ongoing support!***

*from Fiona, Kirsty, Rosemary and Debbie*
